 Double Bass.

Very intense, glittering, fluid, rapid, tightly woven thread of sound, for example something like this:

A rich, restless mixture of sounds in continuous variation, never resting. This effect will rise and fall according to graphic notation.

The most important point is to perform this (even in pp...) with an excess of energy!

Flutter-tongue (Flz) and sul ponticello (sp) indicated in score.

sudden rapid ascent to highest sound; shoot up like sudden jet of a fountain, passing through as many notes as possible on way up.
