

# fembot bacchanale

Erik S. Dæhlin

This music is copyright protected

**fembot bacchanale** was written for Pinquins; Wendy Greenberg, Sigrun Gomnæs and Ane Marthe Sørlien Holen, with fundings from

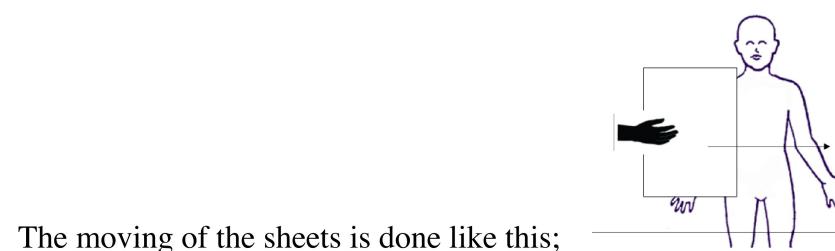

The piece is in five parts; *begin/end*, *collage*, *future*, *bacchanale*, *I am wo* (epilogue). Durata: approx. 15 minutes. The percussionists are placed left, middle, right, notated as seen from audience.

### begin/end

are for three percussionists/performers, white sheets and video. All three should be placed according to the video. The sound coming from the video should be balanced with the playing on page 4. The hand gestures used in Begin/End ("the end is always another beginning"):

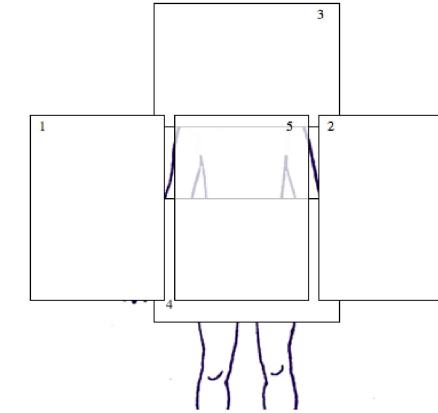

Note that using only left hand doing these gestures, doing a gesture pictured with two hands, please choose one hand according to the picture.

The moving of the sheets is done like this;

each performer holding the sheet with right hand, moving the sheet in these positions:

When 'middle' are using the a2 cymbals, it is important to stand according to the video, so that the video are shown on the two cymbals. The playing on the sheets from bar 28, should be as loud as possible, but not violent. The vibraphone should be placed on the left side and the glockenspiel on the right seen from the audience, outside the "video-area". They should be placed in a way which makes it easy for them both to see the projections on the cymbals.

*begin/end* is done by heart.

### collage

are for three percussionists/performers: 'left' and 'right' sings, use the sheets, talk and play. They both have to stand as in *begin/end*. 'Middle' triggers soundfiles from sampler/computer.  
*collage* is done by heart.

### future

are for three percussionists/performers: 'left' and 'right' playes tom tom, and 'middle' playes cymbals. They all uses a white sheet each.

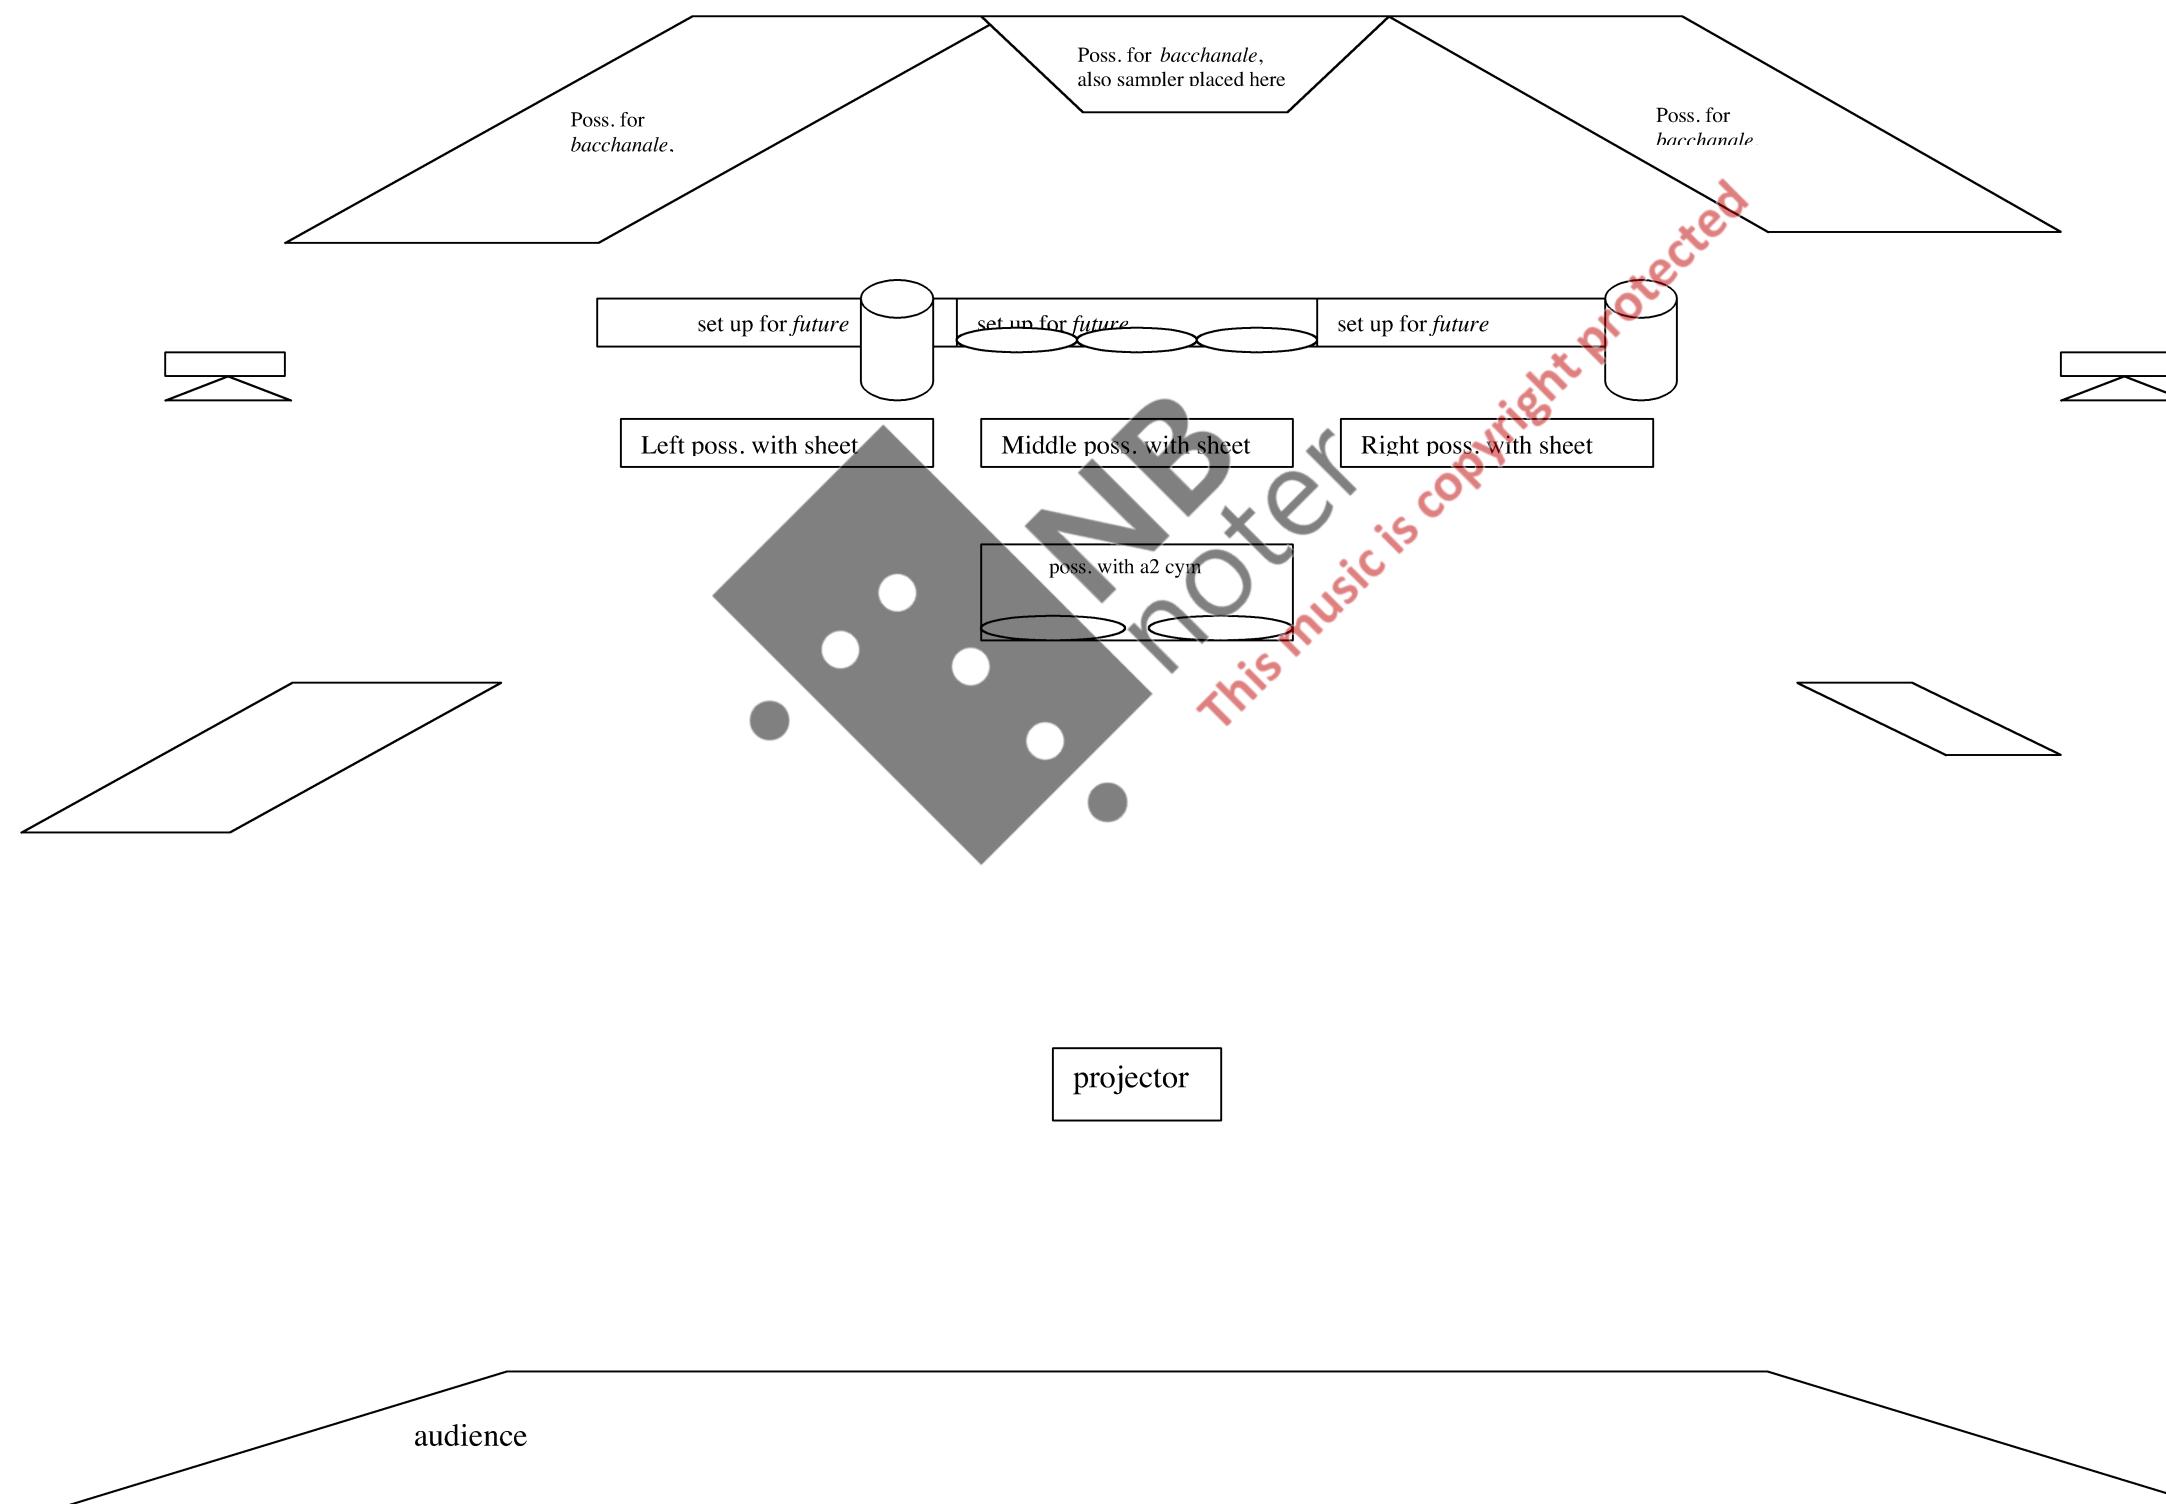

*future* is done by heart.

### bacchanale – I am wo (epilogue)

*bacchanale* are played on drums, together with electronic sound. This section leads (the last soundfile (# 8) continues into the sinus playback for *I am wo*) to the epilogue, preferably sung by 'middle', while the others play vibraphone and glockenspiel.

The video for **fembot bacchanale** is split up in two sequences (*begin/end-collage...* and *future*), and should be triggered in a smooth way; either by one of the percussionists or the sound -/visual technician – reading a score or given clear instructions.

Suggestion for set up:

Numbers in squares are positions of the sheets. From the beginning, the black side surface are used. The performers should pay attention to each other, so that a silent togetherness is achieved when it comes to moving the sheets.

Notated words are words both shown on the sheets from the projector and also sounding from tape. The gestures (notated in latin) are shown with the left hand in front of the sheet. The gesture are done

The gestures (notated in latin) are shown with the left hand in front of the sheet. The gestus are done with an impact quality. That means the movement are to anticipate the notated crotchet and stop with a kind of attack at that beat: it starts outside the sheet, and end in front of it at the beat. Almost as the game "rock, paper, scissors". Hold the position of the gesture as long as it is lit up with white light - as the notated durations, then move the arm away.

*Always look out 'on' the audience when a word is projected on your sheet, at your hand or out 'on' the audience*

*when you do a gesture, and down or at the back of the sheet when there are no words on it.*  
*begin/end and collage* are to be performed by heart. The three performers are standing next to each other according to the video. Is all starts when the performers come on stage with their sheets and are placed where they should be. Or they walking against the projector placed in front of the stage, getting their sheets - all 'catching' the light coming from the projector, moving to their positions together with the sound of bar 1.

The soundfile have important ques for the timing of the positioning of the sheets, since all is to be syncronized. These ques are notated as text, as rythms and as arrows.

$\text{♩} = 60$  These ques are notated as text, as rythms and as arrows.

## fembot bacchanale - Begin/End

Erik S. Dæhlin

The soundfile have important ques for the timing of the positioning of the sheets, since all is to be syncronized. These ques are notated as text, as rythms and as arrows.

**Erik S. Dæhlin**

**Tape**  $\text{♩} = 60$  approx. 20'' you will no longer (feedback sound)

**Percussion Left**  $\text{♩} = 60$  [1] you [2] no legato sing [3] no - o - o - o - o sim. mp >< ><

**Percussion Middle**  $\text{♩} = 60$  [1] gesture *Execratione repellit* [2] no legato sing + [3] n - o - o - o - o

**Percussion Right**  $\text{♩} = 60$  [1] gesture *Execratione repellit* [2] will [3] longer

**Tape/video**  $\text{♩} = 8$  see all those atrocious things quick to:  $\text{♩} = 8$

**Perc.**  $\text{♩} = 8$  [3] see [4] gesture *Sic ostendebit seipsum ostendo* [5] those [1] gesture *Dimitto* [2] things [3] quick to:  $\text{♩} = 8$  gesture *Dolebit*

**Perc.**  $\text{♩} = 8$  [3] see [4] gesture *Rationes profert* [5] atrocious [1] all [2] gesture *Mendice*  $\text{♩} = 8$

**Perc.**  $\text{♩} = 8$  [5] gesture *Dimitto* [1] all [2] gesture *Mendice*  $\text{♩} = 8$

Continuing into this part, the video shows text and some pictures on the sheets of Perc. left and Perc. right. They should hold their sheet in position 1 during this sequence, until notated. There are little sound coming from the video after a while; Perc. Middle triggers soundfiles unsyncronized with the video, according to the notation. Soundfile 1 sounds from video. All soundfiles should be triggered quite attacca.

Perc. Left from fragment/soundfile 1, you are playing finger cymbals every time the soundfile starts. You also say the written text, slowly, monotonously and clear. When it says *SING*, this means:

Perc. Left and Perc. Right should choose 3 songs each (not the same) of these pop-tunes:  
 "Human Nature" Madonna Verse 1  
 "It's a man's man's world" James Brown Verse 2  
 "I am woman" Helen Reddy/Ray Burton Verse 2 and one chorus  
 "Are you gonna go my way" Lenny Kravitz Verse 1 (from "I'm the one" to "I'm done")  
 and Verse 2 (from "We must engage" to "be in love")  
 "tu m' as trop menti" Chantal Goya Verse 3  
 "Who's that girl" Robyn Verse 1 (without bridge)

These songs should be practiced and performed as you would sing/hum/croon when listening to the songs on an Walkman or iPod. The result will be fragile, intimate and fragmentet short sequences from the songs.

Perc. Right starts at fragment/soundfile 2. You are playing "money" chimes every time the soundfile starts, and doing so for as long as the soundfiles lasts. You also say the written text, slowly, monotonously and clear. When it says *SING*, this means sing/hum/croon the songs mentioned above.

## collage

**Tape/video**

50      the female function      is to      groove .... (video just continues)      26''

**Perc.**

Move calmly from vibraphone back to position. You are going to use the sheet again, and a "money" chime.

Continue to hold both cymbals outwards after the Bacchanalia picture, through the text "fc male" - "is to". When two white round circles flashes up; lay down cymbals and move to sampler/cymbals.

You are back, holding your sheet in poss.1 and in left hand holding a pair of finger cymbals.

**Perc. Middle**

PURITY      SING

**Perc. Right**

1 →      JUST      Soundfile 2

When you trigger the soundfile, you show with our hand/fingers which fragment/soundfile is being played. Don not hide it, make it also clear to the audience.

video - alternative A: white light on video, set on pause, so that the last part ("bacchanale") is played in white light. If video - alternative B: let the video play to end.

Every sequence is played synchronized with the soundfile triggered - in same tempo as the soundfile. Pay attention to changes and rythms in each soundfile - to get ques to catch and stay synchronized and in tempo with the electronic sounds.  
A sequence is in between one tempo, ex. bar 1 to 10, without stop, except last sequence, bar 40-44, and second sequence, bar 11-21.  
It is possible to go right to the next sequence - attacca, or have a short pause before continuing, notated as fermata. Every soundfile ends with a "eco-tail" - decrescendo, sounding in this fermata. The soundfile is triggered by one of the musicians according to the score, pref. "middle".  
These soundfiles are named 1, 2 and so on.

bacchanale

Instruments, from top to bottom:

Perc. Left: wood-/tempelblock in combination with metal plate (aluminium)  
2 sets of bongos  
deep tom tom

Perc. Middle ratchet on stand  
1 set of bongos  
snare drum, without snares

A page of sheet music for a drum set, specifically for the snare drum. The page is numbered '3' in a large box at the top center. The music consists of four measures. Each measure starts with a sixteenth-note pattern of sixteenth-note pairs (eighth notes) on the first two heads of the snare drum. The third measure includes a bass drum stroke indicated by a circled 'o'. The fourth measure includes a bass drum stroke indicated by a circled 'x'. The music concludes with a sixteenth-note pattern of sixteenth-note pairs (eighth notes) on the last two heads of the snare drum.

A page of sheet music for guitar, featuring three staves of musical notation. The top two staves are standard six-string guitar notation with note heads and stems. The bottom staff is a tablature staff showing the position of each finger (1-4) on the strings. The music consists of a series of eighth-note patterns. A large, semi-transparent watermark with the letter 'B' is overlaid across the page.

5

*mp*

*f*

*f*

*f*

*f*

The image shows a musical score for a three-part instrument, likely a guitar, spanning measures 2 through 3. The top staff consists of sixteenth-note patterns. The middle staff features eighth-note chords with grace notes and slurs. The bottom staff shows rhythmic patterns with accents and 'x' marks. Measure 2 starts with a sixteenth-note pattern on the top staff, followed by an eighth-note chord on the middle staff, and a sixteenth-note pattern on the bottom staff. Measure 3 continues with a sixteenth-note pattern on the top staff, an eighth-note chord on the middle staff, and a sixteenth-note pattern on the bottom staff.

The image shows three staves of musical notation for electric guitar. The top staff uses a standard six-string guitar tablature with vertical bar lines. The middle staff uses a simplified tablature where each vertical column represents a string, and horizontal strokes indicate note heads. The bottom staff is a standard six-string guitar tablature. Each staff begins with a key signature of two sharps (F# major or G major) and a time signature of 3/4. The notation includes various rhythmic patterns, such as eighth-note pairs and sixteenth-note groups, indicated by vertical dashes above the notes. There are also several grace notes, marked with a small circle and a diagonal line. The first staff has three measures of eighth-note pairs. The second staff has three measures of eighth-note pairs, with the third measure ending on a sixteenth note. The third staff has three measures of sixteenth-note pairs.
