Things to be aware of:

1st Bassoon:

The parts that are written "8va, ad. lib." (f.ex bar 37 & 39) are highly preferable to be played 8va, please select a bocal that's reliable for the higher register and use a good high F fingering.

2nd Bassoon:

Due to chromatic leaps between low A and B flat (f.ex bar 42 & 58) please note that the second bassoonist will need a low A-bell and not an extension of the Bflat-bell. It is highly preferable to perform this in the octave that's written, and should not be performed the octave above.
